Profile

Computer Science student interested in Python, Data Engineering, AI, and Data Science. Currently developing practical skills through the Digital Egypt Pioneers Initiative (DEPI) Microsoft Data Engineer track, with a focus on programming, data technologies, and practical projects. Interested in building useful solutions and gaining hands-on experience through projects and real-world work.

Education

Ahram Canadian University — Egypt
Bachelor of Computer Science — Expected Graduation: 2028

Training

Digital Egypt Pioneers Initiative (DEPI) — Egypt
Microsoft Data Engineer Track — 2026 – Present

- Developing practical knowledge in data engineering, Python programming, and data technologies.
- Working on exercises and practical activities to strengthen technical and problem-solving skills.

Projects

Python Calculator | *Python, OOP*

- Built a basic calculator class for addition, subtraction, multiplication, and division.
- Handled division by zero by returning a clear error message instead of stopping the program.

Library Management System | *Python, OOP*

- Created a simple library system using Book and Library classes.
- Implemented adding books and displaying stored book information using class methods.

Python Package | *Python*

- Created a custom Python package containing reusable arithmetic functions.
- Imported and tested the package functions in a separate Python environment.

- *Worked on a database-based movie booking system using relational data and SQL queries.*
- Practiced organizing data and working with database operations for a practical use case.

Technical Skills

Programming: Python, C++, C#, PHP
Tools: Jupyter Notebook, Codeblocks, visual studio , Microsoft Office
Concepts: Object-Oriented Programming, Data Structures, Problem Solving

Soft Skills

Communication, Fast Learning, Teamwork, Problem Solving, Presentation

Languages

Arabic: Native — English: Intermediate
